

② Farm Equipment Storage Buildings, Hay and Crop Storage Buildings

The superior ventilation in a Britespan building protects equipment and vehicles from the elements and maintains the quality of hay, straw and commodities. Generous height and open-span interiors allow you to maximize interior storage space and maneuver equipment and vehicles with ease.

When you buy a Britespan fabric building, you automatically get support from our network of local experts. Dedicated to you, our dealers are experienced in providing support from project inception through completion.

"We invest a lot in equipment, and hay is our bread and butter product so to speak. Our Britespan building protects our products from the elements, and reduces repair costs on the equipment."

The Britespan Advantage

Natural Light & Ventilation

With bright, natural lighting and abundant ventilation inside, a Britespan fabric building provides a comforting environment.

Wide Open Interiors

With no interior columns, you can maximize useable storage space and easily maneuver heavy equipment and vehicles.

Engineered Solutions

All of Britespan's structures are uniquely engineered to meet specific weather conditions and building codes.

Speed of Construction

Utilizing a pre-engineered and modular design, all of Britespan's fabric structures are built faster than conventional buildings.

Corrosion Resistant

Britespan trusses are hot dip galvanized, post fabrication, to prevent any rusting, providing lifelong corrosion resistance.

Local Support

When you buy a Britespan fabric building, you automatically get support from our network of "Local Experts".

Replacement & Repairs

Cover replacements require precise fit and proper cover installation techniques. Our expert installation crews work from original drawings and specifications to provide you a cover that meets or exceeds the original specifications. With local dealers and industry experts across North America, Britespan is there when you need us.
